Ask your librarian for more information!

- 1** Go to your library's website to **launch Ebook Central**.
- 2** Choose among **10 different interface languages**.
- 3** Conduct a **simple or advanced search** that can be narrowed by publication year, relevance, subject, and other parameters. Search for exact phrases by putting them in quotations (e.g. "autism spectrum disorder").
- 4** Select the title to **enter a landing page** that provides key information about the ebook including a description, download availability, and copy and print allowances.
- 5** **Open the ebook and navigate** by scrolling or flipping through pages. Search for keywords within the ebook and jump to relevant chapters.
- 6** **Take notes, highlight text, and bookmark pages**, all of which are stored on your bookshelf.
- 7** **Create a proper citation** in your choice of format. Citations are automatically created when you copy and paste text and print pages and chapters to PDF.
- 8** **Manage research in your bookshelf** with folders and other tools. Share ebooks and folders with peers.
- 9** **Download ebooks or specific chapters** to use offline. Enjoy ebooks on-the-go on any mobile device with the independent Bluefire Reader.
- 10** **Enjoy ebooks on-the-go** on any mobile device with the independent Bluefire Reader.
